LABOUR 2030 | PORTO 2019

II INTERNATIONAL CONGRESS
WORK INNOVATION, ARE WE READY?
THE FUTURE IS DIGITAL. AND IT’S ON!

ALFÂNDEGA DO PORTO CONGRESS CENTRE
19th AND 20th OF SEPTEMBER 2019
A. INTRODUCTION

The debate on the future of work is increasingly a debate about the reality of today’s society. In fact, technological developments have increasingly assumed a significant impact on labour relations and at an ever-growing rate. Topics such as robotics ceased to be integrated in a future context of work and became part of our daily lives. If collaborative economics was the driving force behind the discussion of the transformation of labour as we know it, many other issues need to be studied in order to ensure the appropriateness of the legislative effort to the new realities that gradually emerge.

In 2017, we gathered in Porto (Portugal) about 300 congressmen – with all continents represented – in the first Labour 2030 with the motto of understanding the changes and envisioning the future of work. In 2019, we will return the outstanding debate from the previous edition, with its excellent contributions compiled, and will continue to make a difference and shape the future of Labour Law with the world’s best academics and professionals.

B. CALL FOR PAPERS

As part of the aforementioned discussion on the future of labour and its transformations, the Law Academy, with the support of CIELO Laboral and the Associação de Jovens Juslaboralistas (AJJ) jointly promote a call for papers to ensure a major debate on the future of work, with the year 2030 as target.

Thus, interested parties are invited to take part in this debate and submit proposals for papers on the following subjects:

I – (THE) IMPACTS OF ROBOTICS, ARTIFICIAL INTELLIGENCE AND NEW TECHNOLOGIES IN THE WORK CONTEXT

II – WORK IN THE FIELD OF TECHNOLOGICAL ENTREPRENEURSHIP AND START-UPS

III – NEW FORMS OF WORK AND INTELLECTUAL PROPERTY

IV – INDUSTRIAL RELATIONS AND IMPACTS ON THE ENVIRONMENT

V – TAXES ON LABOUR AND SOCIAL SECURITY IN A GLOBAL ECONOMY AND IN THE CONTEXT OF MULTINATIONALS

VI – MOBILITY OF WORKERS - FROM THE NEW MIGRATION PROCESS TO THE MOVEMENT OF MILLENNIAL GENERATIONS

VII – DATA PROTECTION IN A CONTEXT OF PERSONAL DATA AND GDPR

VIII – THE IMPACTS OF AGING POPULATIONS AND ONCOLOGICAL DISEASES IN THE ORGANISATION OF LABOUR

IX – NON-COMPETE CLAUSES IN A GLOBAL ECONOMY

X – THE FUTURE OF LABOUR LAW IN THE EU

XI – NEW TRENDS FOR TRANSNATIONAL COLLECTIVE BARGAINING

XII – SKILLS OF WORKERS FOR THE LABOUR MARKET OF THE 4.0 INDUSTRY

XIII – THE IMPORTANCE OF SOCIAL CLAUSES IN INTERNATIONAL TRADE TREATIES

XIV - LIABILITY AND INSURANCE COMPANIES
The organisation will accept proposals from a national perspective, but also from an international perspective. The approaches to the themes should be framed within the branches of Law, Economy, Sociology and Industrial Relations, Technology and/or others, as long as a particular interest justifies it.

Proposals must correspond to papers in order to be presented in one the following formats: a) plenary or parallel dynamic sessions; or b) poster presentation. Each proponent may submit up to two proposals, but only one, at most, will be accepted by the organisation. For this purpose, an abstract proposal (limited to 500 words and with indication of the title and keywords) must be submitted in one of the official languages of the congress until May 12, 2019, by upload to www.labour2030.eu, which will be made available in due time. Registration on the website and the use of its uploading platform are mandatory for the submission of the abstract(s).

It is advised that the selected poster presentations will be displayed throughout the congress. Furthermore, the presentation of posters by their authors will be held in previously determined plenary sessions, and presented in the elevator pitch format. Each presentation cannot last longer than 5 minutes. Considering the poster presentation format, a speaker’s certificate will be given to its authors.

If the number of proposals so warrants, a book presentation session, as well as technological solutions for hardware and/or software and services related to the themes of the congress may be held.

All conference attendees will have the opportunity to evaluate each poster through an app designed for the event. As a result, a prize will be awarded to the best poster presented.

Publication possibility. After the event, the Scientific and Organizing Committees will evaluate and select the best papers for publication (online or paper). Papers sent in English by non-native authors must be supplemented by a certificate attesting to their translation or linguistic revision. Otherwise, the work can not be taken into account for publication purposes. If, however, the publisher rejects the paper for the quality of English, the author will be responsible for the eventual cost of the review; otherwise the paper will be rejected automatically by editors.

For further information and clarification of any queries, candidates may send an e-mail to labour2030@lawacademy.eu.

C. Official Languages Of The Congress

Portuguese, Spanish and English.

Simultaneous translation from/to English will be guaranteed in all sessions.
D. **Confirmed Speaker**
